

CREATE DIY Dog Toys!

Gather Supplies

You can use fleece or old t-shirts and a pair of scissors to cut strips of fabric.

Cut Material

You will want as long of a strip as possible since the toy will shorten as you tie the knots.

Create the Toy

After tying the knot, finish by weaving a braid or tying square knots the length of the toy.

Get Creative

Have fun creating as many toys as you'd like and then get them ready for drop-off.

Organize Drop-Off

Bring them to the Gulf Coast Humane Society or your local United Way!

Smile

Know that you made a dog's day a little happier while they wait for their forever home!
